

SHA 4th Graders Attend Farm Bureau's "RED" Day – Rural Education Day

SHA 4th graders at the Joe & Beth Bryant farm in Shepherd

Students learn the veterinarian's important role working with the farmer to keep a healthy herd and about vaccinations.

After learning about what calves eat and where they live apart from their mother, students were able to explore and pet the young ones.

Mr. Gross talked about the importance of sharing roadways with slow moving vehicles such as tractors while they move from field to field.

Tyler, who recently played football against Sacred Heart Irish, teaches the students the importance of fresh water, the water cycle, and the effects of pollution.

Students learn the importance of bees, their hives, and their role and importance for crops.

DNR officers share ORV safety tips.
