

Latham Advances to State Level for Mathcounts!

On Saturday, February 24, 2018 a group of SHA students competed in a regional math competition held at Saginaw Valley State University. Sixth graders, Alex Latham and Bridget Ruiz and seventh graders, Minje Coyne and Archita Saraiya along with other 6th-8th graders in our math club, have been preparing since Thanksgiving for this Mathcounts! competition. These four students competed against students from nine area middle schools. Congrats to all the students who represented SHA in our first year competing at Mathcounts! And, good luck to Alex, who scored high enough to advance to the state level of competition and will represent Sacred Heart on Saturday, March 10, at Michigan State University.
