The Juniors of SHA who are in student council are in charge of setting up for the Junior and Senior Prom. They do fundraisers to get the money for it and they also plan for the Junior and Senior banquet.

The Seniors of SHA who are in Student Council are the head of all student councils in the school, they plan homecomings and pep assemblies.
Mr. President
Right: Aaron Seybert does double duty as Mr. Rockey’s teaching assistant. This enables him to keep up with all the extra work that BPA creates.

BPA
THE FUTURE OF CORPORATE AMERICA
This year’s club was under new “management” again. Ms. Barb Rockey took over the responsibility of advising the eighteen member group on top of her teaching duties. The club sold coupons for the second year in a row to raise money for district and state competition. District competition, held in January at CMU, yielded two qualifiers, Andrew Sundberg and Maegan Andeman. They moved on to state competition at the Renaissance Center in Detroit. Another successful year!

Have a safe prom
Below: Briana McConnell and her date Eric take a break from dancing and share a “Hug”.

SADD: Students who make a difference
Members of the Sacred Heart chapter of Students Against Drunk Driving are committed to the integrity of their club. These students stand behind their convictions and shun the traditional peer pressure that we all face. SADD members are actively involved in school activities that may focus on alcohol usage, like Homecoming and prom. For many years, the club has sold and delivered carnations for Homecoming. This serves as a fundraiser and a reminder to have a safe Homecoming.

The club also makes its presence felt at prom. Every year a party favor along with a message is placed on the tables. This year’s message was “Hugs & Kisses from SADD” they were tied in with little chocolate candies.

Traditionally, SADD sponsors a guest speaker that relates to drinking and driving. This year was no exception. The guest speaker came in at the end of the year and students responded very well to his humorous but serious message.

Flowers anyone?

**Journalism**

"Skills we need for the future."

Journalism is a great time to learn the basic ideas and skills of publication. Abby Wood says, "It doesn't seem like a real class because we have so much fun, but we also get a lot of work done." Journalism students acquire a host of skills desired in today's job market. They are learning cutting-edge desktop publishing, photography, journalism, sales, advertising, and public relations. Not only that, they also learn discipline and teamwork.

The Journalism class not only creates the High School yearbook, but also writes and publishes the school newspaper, The Clover Chronicle.

"Homecoming this year was the best one ever, the assembly was great," says Mike Sheahan-Stahl. Many people agreed with him. Above pictured is the 1997 Homecoming court, and to the right is the King Nick Grinzinger and Queen Alicia Wickert.

This year Sacred Heart changed tradition and waited until the game to announce the King and Queen. Many of the students were hesitant but it turned out great. All of the Attendants got to feel like a queen for a week instead of just one girl. The dance was at the Holiday Inn and was by far the best dance we've had in a long time. The theme was "A Night at the Movies."

The Homecoming game was against Webberville. Sacred Heart blew away Webberville by 33 points; the score was 40 to 7.

The Drama Club Performs:

Curtain Going Up!

For the first time in four years, a drama club was put together at our school. It was well overdue for an acting group to be back, and they weren’t exactly welcomed with open arms. There were a lot of obstacles for them to overcome, and many people didn’t think they would be able to pull it off, but they did, and the performance was spectacular. Stephanie Koenig said “I was really surprised with the turnout, and how well we actually performed. I will miss everyone so much next year. We had this special bond, like we were different from everyone else, I can’t really explain it, we’re just weird you could say, but I’m proud to be weird.” Call them weird if you will, they did a lot of hard work, and spent so much time trying to get everything perfect. Abby Wood said “It was kind of strange towards whether we would get it done or not, but it was fun, and we pulled it off, and as much as we complained about it when it was going on, I miss it a lot, and I think I speak for everyone when I say that.”

(way up top left) Megan Lynch, Sean Bigard, and Abby Wood do a scene which involved very fancy southern dresses. Problems walking ladies?

(above) Brian Quakenbush, and Stephanie Koenig perform a scene as Tony the janitor, and Miss Burgess, as the some more of the cast looks on in the background.

Who? Me?
Left: Joe Heintz doesn't know what to think of the magician and his "friend". Being called on stage is one of the risks you take when you are as devastatingly handsome as Joe.

Can I get you a drink?
Above: Junior and Senior mother, Judy West, along with Sophomore servers Katie Beltonick and Carrie Denlow fill glasses with ice and soda. Sophomores traditionally serve the seniors.

So I get it Now you see it. Now you don't.
For the second year in a row the juniors hired an entertainer for the evening. This year a magician was selected and he wowed us with his sleight of hand and sense of humor. The juniors also provided a slide show for the seniors and the seniors presented their mock awards.
Time spent preparing for Prom took up fun, entertainment, dancing, most of the food and just good times with day, for their best friends before high nearly 70% of school is over. Everyone had a girls, and good time, and is excited for 35% of guys. next year.

All Together Now. (Below) Dave, Chad, Cari, Brian, Tim, Nick, Joe, Matt, Josh, Angie, Trevor, Shavana, Anne, Dan, pat, Anna, Ben, Bryan, Mike, Nandini, Ben, Lara, Keith, Nikki, Sara, Ryan, Lindsey, Amber, Casey, Jason, Beth, Alicia, and Melissa, gather together to take a professional picture.

Sophomores Aren't Stupid

Sophomore: a student in their 2nd year of high school. [Gr. Sophoiose, clever-Morfoolish, silly]

What's the stupidest thing you've ever done?

- Egged Father Don's camper. - Anonymous
- I walked out of Max & Emily's with a cup of water. It was about half a block before I realized it and ran back to return it. - Meagan Fitzpatrick
- A friend and I were having lunch. He told a hilarious joke, and I almost spit my milk all over. I felt so dumb, but I made it to the sink in time. - Matt "Bell" Bollinger
- I was in a parking lot getting ready to leave. Instead of putting the car into reverse, I put it into drive. My mom was in the car yelling at me to stop. I almost hit this car in front of me. - Anonymous

Left: Matt "Bell" Bollinger and Kacey Neyer...a friendship sure to last forever! They took some time out of Father Don's class to take a picture. A lot of people seem to take time out of his class for this...

FRESHMEN

When I grow up, I want to be...

I want to be a father and maybe a lawyer, because I love to argue, and you get to do that in both professions.

Korey Hartman

I want to be a veterinarian because I really like animals and I think it would be really cool.

Heather Moore

I would like to be a psychiatrist. Then I'd get to mess with people's heads and prescribe drugs.

Nick Tallent

I want to be a rock star. There's nothing that gives me more satisfaction than doing what I love most, playing the guitar, then people will want my autograph.

Mike Spence

I want to be a high paid business man, whose daily activities consist of firing employees, making fun of their work, and taking "business trips" to exotic locations.

Jason Wadowski

I would like to be a pro skateboarder and snowboarder. I also want to own a skateboard and snowboard shop.

Garrett Seybert

Uh......... I was planning on winning the lottery, because I'm itchy!

Andrea Sterling

I want to be a housewife, because I'm lazy. My husband will make tons of money and give it all to me. He will also be very good looking.

English Religion Math and Science

What goes on in between the times when we are in the halls. (class)

English class is where we learn about writing and the great literary works of time. Many hours a week are spent learning about what people before us liked to read, and how they entertained themselves. Unlike us, who are easily entertained.

Religion is where we can learn about the history of Religion, the other Religions of our world, the ethics involved in religion, and Death and Dying. Math is the time that we learn to think in different ways, by complicated ways of problem solving.

Science is all types of learning about how the world, and our bodies work. There are many different forms of science class, such as Biology, Health, Earth Science, Chemistry, and Physical Science.

J.V. Girls Know How to Have Fun
The J.V. girls basketball team seemed to have fun wherever they went. The whole team got along well and it showed on the court. Freshman Anna Hauck and Andrea Sterling, share their favorite memories from the past season.
“It was really fun to stay the night with both teams.” Anna says about the tournament in Manistee. “We all were forced to wake up in the morning when Coach Flannery started jumping on our beds.”
“The speeches Coach gave us that took time out of our practices.” Andrea said. “He just went on and on, but I guess they showed us he cared.”

Yelling For Spirit
Many things contributed to J.V. football’s successful season. The fact that all the boys got along helped greatly with cooperation. Everyone on the team were easily pumped up and rarin’ to go. The most popular way to get their adrenaline going was to yell at the other teammates.
“Yelling at each other is the easiest way to get riled up,” said freshman Nate Grinzinger. Sophomore Barry Bott and freshman Eric McQuaid both agreed on that approach. What do they yell exactly? God only knows.

Playing The Court

Lady Irish

The Irish had a fun, yet difficult season. Senior Angie Beltinck said about the season: “Everyone contributed as much as they could to make the year as best it could be; the highlight was beating Beal City.” A lot of students went out to cheer for the team, which was unusual. They were very well supported, more than our previous girls teams had been. Which to say in the least did not help them very much.

The team had nine players. Two seniors, five juniors, and two sophomores, with one more joining late in the season. They all came together and worked real well, despite some age differences. The team was headed by Kevin McQuaid, and Bill Flannery. Annie Love, sophomore team member said “It was very fun, even though I was the youngest, it was a good learning experience, although we didn’t win very many games.”

We could have done better, but all in all a good effort. The guys did well and we had a good time.

Cheerleading

Keeping the crowd on their feet

The Sacred Heart Cheer Team had a successful cheerleading season this year. Coming off a state championship last year the girls faced many expectations which they worked very hard to satisfy. They started the year with a young, inexperienced team consisting of only three upperclassmen. With hard work and dedication the cheerleaders steadily improved all season long. Of course it was all worth it in the end when they walked away with the regional cheerleading title, a great accomplishment especially considering the cheer team lost one of their great assets the night before regionals, Mary Galgoczi, who played a huge role in stunting as a flyer. They knew overcoming this would take a lot of work but they were able to qualify for yet another chance at the state title.

The volleyball team did an excellent job this season. They had one Freshman who was very welcome. Despite some differences in opinions, and feelings, they worked very well together, and they all made some more friends, and grew closer with others. We are all really proud of the girls this season, and we wish them good luck next year.

The Varsity Golf team did an excellent job this season. They took second at the state finals. Not everyone played in all the matches, but it was a whole team effort. Greg Starry and Mike Fitzpatrick (coaches) did a really good job getting the team into the advanced level they are at now. Dan Boge also helped out the team greatly. There was a lot of competition for the top five positions. We congratulate the team on a well season.

J.V SPRING SPORTS

Underclassmen prove themselves

Underclassmen (and women) never have an easy time of it and junior varsity sports usually prove that fact. J.V. baseball and softball teams don't get the best fields or the most fans, but they don't let that dampen their spirits. J.V. sports are a training ground for the Varsity teams and this year's group of baseball and softball players proved that when their time comes they can step up to the plate.

Once again the Irish baseball team proved that they were a force to be reckoned with. A stellar season provided the backdrop for some exciting moments including winning the Lehman, Clare, Farwell and Sacred Heart Tournaments. With a record of 29-6, Sacred Heart was ranked #3 in the final polls. The team was undefeated in their conference with a record of 8-0 in the MSAC.

Returning seniors Tim Groves, Casey Fitzpatrick, Ben Wright, Pat Trainer, Nick Grinzinger, Ryan Haase, Dan Barberi, and Keith Hutchins all were able to contribute to the award winning season and many of them look honored around the state. Coach Earl Hartman’s 14th season was another one for the record books!

Cross Country

Cross Country has slowly but surely made its way back into Sacred Heart's Athletic schedule. The team pulled together with six high school members, and two honorary Junior High members. They all get along well, considering some serious age differences. Which shows a lot of maturity.

James Jakubiec said that “The team had a lot of fun, and really did pull together to act as a team. We all grew closer over the season, and hopefully next year we will have as much fun.” Everyone is really proud of the Cross Country team, and we wish them luck next year!
