

These vehicles transport the future

Sacred Heart Academy has been blessed with the donation of two Ford Transit vans. The vans are the perfect size for transporting students without the expense associated with a traditional school bus. Coaches, parents, or teachers can drive the Transit vans, making transportation much more economical. If a school bus is used, a driver with a CDL license is required. The vans are a wonderful solution for smaller athletic teams, such as golf and cross country; they can also be used for Robotics and other groups including SHA teachers or Youth Ministry members. An anonymous donor gifted the first van in January of this year. The second van was purchased October 3 courtesy of three parishioners: Darcy Lapham (SHA '51), Joann Ministrelli (Tullymore Resort), and an estate gift from Frank Epple (SHA '59). SHA is forever grateful to all the donors, and to James Yun at Krapohl Ford for working with us to secure the vans. As you can see in the photo, the vans display Academy images to promote the school and remind people "these vehicles transport the future": our SHA students.
